VEMANA INSTITUTE OF TECHNOLOGY

Koramangala, Bengaluru - 34

Department of Computer Science & Engineering

Course Outcomes & CO-PO-PSO Mapping and Justification

Subject	Supply Chain Management	18ME653
COURSE OUTCOMES:		

CO No.	On completion of this course, students will be able to:	Cognitive Level
18ME653.1	Understand the framework and scope of supply chain management.	L2
18ME653.2	Build and manage a competitive supply chain using strategies, models, techniques and information technology.	L2
18ME653.3	Plan the demand, inventory and supply and optimize supply chain network.	L3
18ME653.4	Understand the emerging trends and impact of IT on Supply chain.	L2

CO-PO-PSO JUSTIFICATION

CO No.	PO/PSO	CL	Justification
18ME653.1	**PO1**	L2	Graduates will reasonably apply the knowledge to framework and scope of supply chain management.
	P11	L2	Graduates will substantially describe concept of framework and scope of supply chain management
18ME653.2	**PO1**	L2	Graduates will moderately use the acquired knowledge to Build and manage a competitive supply chain using strategies, models, techniques and information technology.
	PO5	L2	Graduates will moderately adapt tools and techniques to Build and manage a competitive supply chain using strategies, models, techniques and information technology.
	P11	L2	Graduates will substantially use the concept to Build and manage a competitive supply chain using strategies, models, techniques and information technology.
18ME653.3	**PO1**	L2	Graduates will reasonably use the fundamental concept of Plan the demand, inventory and supply and optimize supply chain network.
	PO5	L2	Graduates will reasonably acquiring information of marketing trend to development in plan the demand, inventory and supply and optimize supply chain network.
	P11	L2	Graduates will substantially use the concept of Plan the demand, inventory and supply and optimize supply chain network.
18ME653.4	**PO1**	L2	Graduates will reasonably use the acquired knowledge in understanding the emerging trends and impact of IT on Supply chain.
	PO5	L2	Graduates will substantially adapt tools and techniques to understand the emerging trends and impact of IT on Supply chain.
	P11	L2	Graduates will substantially identify the tasks to understand the emerging trends and impact of IT on Supply chain
