

# Industrial visit to ISRO

The professional society of Vemana institute of technology has organized an industrial trip on 27/02/2023, 07/03/2023, 14/03/2023, 21/03/2023 for 1<sup>st</sup> semester students.

The faculty accompanied for the students from the department of Basic science and humanities with coordinators of professional society.

**Mr.Sreenivas** gave a talk on space science and importance of ISRO. He briefly explained about the process and experiments undertaken by the scientists in order to design and launch a satellite.

Students were taken to see and observe a huge lab where scientist were performing some operations it was very interesting to see the contaminated labs, Artificial satellites and Rocket models which were really fascinating.

Students observed the model of **Chandrayaan-1, Mangalyaan** and **ARYABHATTA** satellite and also saw the whole process of making, designing and launching process of PSLV and GSLV rocket earlier in the introduction room.

Moreover, they observed a real artificial satellite called "**Ariane Passenger Payload Experiment**" and it is shortly called as **APPLE** satellite

Industrial visit to ISRO enriched the Knowledge, experience and provided a great opportunity to learn, interact and exchange of information which will help the students in their future and choose a career with "*Indian space research organization.*"
